9	Action Plan Lesley introduced this part of the evening. The working group has produced several sheets posted on the walls containing issues raised from the questionnaires, under titles such as "Green Spaces", "Social Activities". Action has begun on some of these, but it was put to those present that they might have more suggestions. Leslie ran through the items on the sheets and then those attending were asked to go round and look at the sheets, adding in anything else we could do, and listing any help they could give. After twenty minutes of this circulation, David Lee summed up the additions to the sheets and asked for people to indicate the activity group in which they could be involved. A specific update was given on the IT training requirement, as there is in Beanhill a fully equipped IT training facility with supply of low cost equipment. The Action Plan will be updates and the final draft will be sent off to First Steps by 25 th February. The meeting closed at 9pm
